

Assignment 3

Creating an Application in Salesforce.com using Apex programming Language

Program:

Step No 1: Create new org:

<https://developer.salesforce.com/signup>

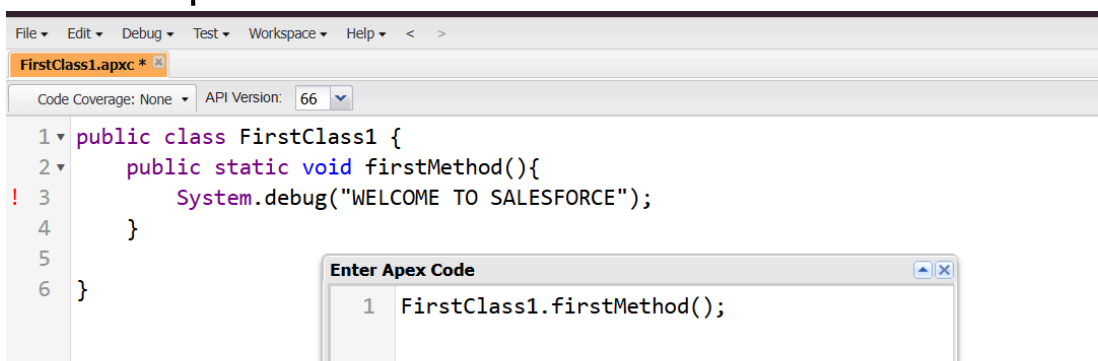

Step No 2: After signup, logging using following URL

<https://login.salesforce.com/>

Step No 3: Login Page (Enter your credential to login)

1. Open Developer Console
2. File ---> New ---> Select Apex Class

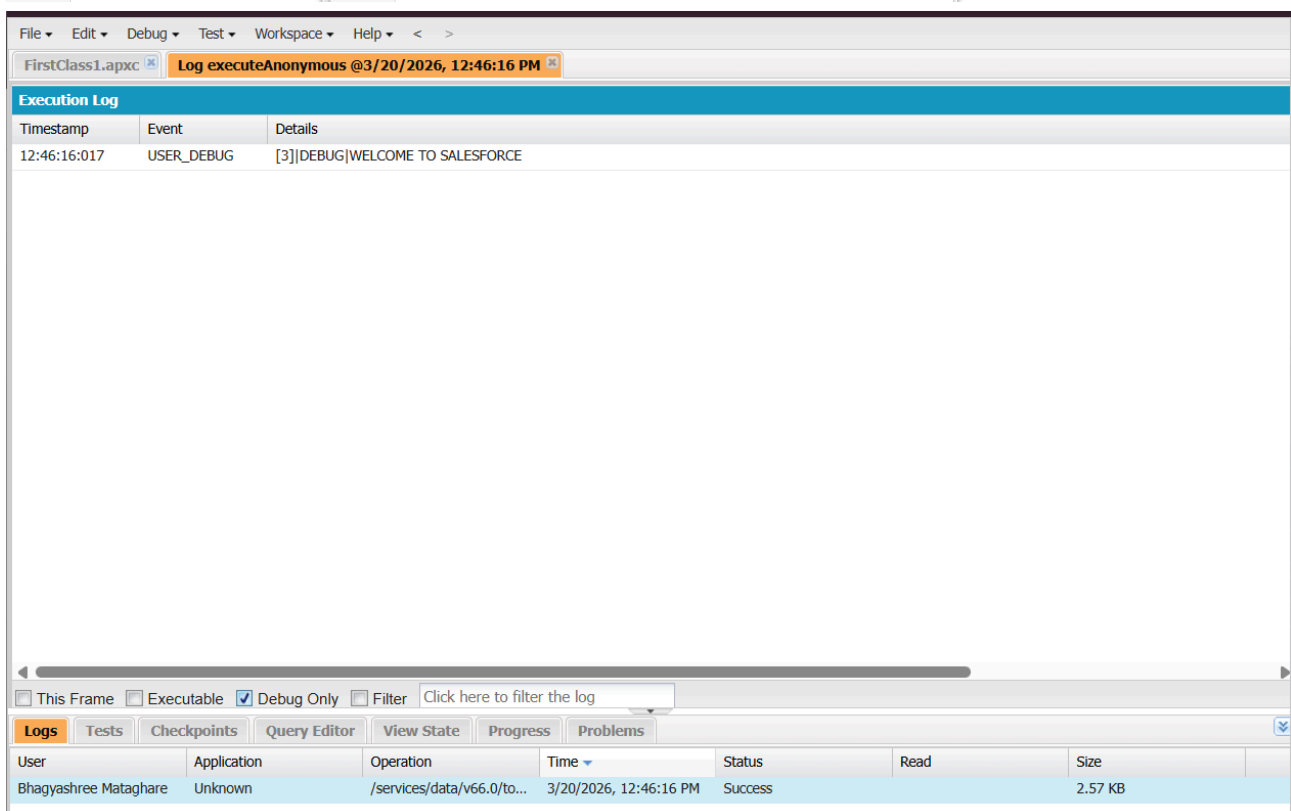

FirstClass1.apxc

```
File Edit Debug Test Workspace Help < >
FirstClass1.apxc *
Code Coverage: None API Version: 66
1 public class FirstClass1 {
2     public static void firstMethod(){
3         System.debug("WELCOME TO SALESFORCE");
4     }
5
6 }
```

Enter Apex Code

```
1 FirstClass1.firstMethod();
```

Execution Log		
Timestamp	Event	Details
12:46:16:017	USER_DEBUG	[3] DEBUG WELCOME TO SALESFORCE
